

INTERNATIONAL COVERAGE AND SPECIALIZED INDEXING

CAB ABSTRACTS®

COVERS MORE CORE SERIALS IN AGRICULTURE AND THE APPLIED LIFE SCIENCES THAN ANY OTHER DATABASE

WHAT YOU'LL FIND

- Global coverage from 150 countries in over 50 languages
- Data from over 7,400 journals, as well as academic books, abstracts, published theses, conference proceedings, bulletins, monographs, and technical reports
- More than 7.4 million records, with more than 250,000 records added annually
- Direct links to your full-text collections
- Fully searchable and indexed backfiles to 1910
- Full integration with *ISI Web of Knowledge*SM content and capabilities

WHAT YOU CAN DO

- Search multiple disciplines and time spans
- Produce high quality research that reflects novel ideas and emerging trends
- Discover emerging trends that help you pursue successful research and grant acquisition
- Identify potential collaborators with significant citation records
- Target high-impact journals for publishing your manuscript
- Integrate searching, writing, and bibliography creation into one streamlined process

“CAB Abstracts is the leading bibliographic information service providing access to the world’s applied life sciences literature. It has a longstanding reputation for comprehensive, quality abstracting and indexing, and integrity of its data. This should be the first stop for the serious researcher.”

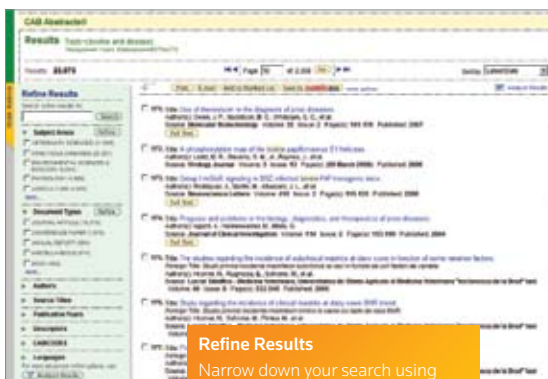

— Luti Salisbury, Librarian/Professor
Agriculture, Food and Life Sciences
Subject Specialist
University of Arkansas Libraries

AGRICULTURAL COVERAGE AND MUCH MORE

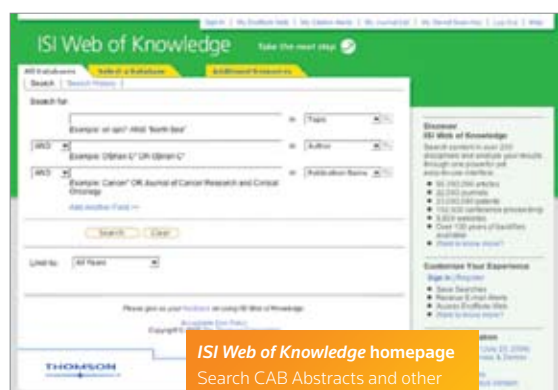

CAB Abstracts is the most comprehensive source of international research information in agriculture and all related applied life sciences. Thorough coverage offers insights into a wide range of disciplines, including agriculture, forestry, human nutrition, veterinary medicine, and the environment. You can explore research areas such as genetically modified organisms, food and crops; diet and obesity; as well as research areas not usually associated with agriculture, such as all aspects of veterinary medicine from diagnosis to surgery and veterinary public health, animal health and production issues, biofuels, aquaculture, and land/water management.

BACKFILES AVAILABLE TO 1910

You can track nearly 100 years of vital data and find the supporting – or refuting – data you need. Modern indexing terms and search functions have been added to older backfiles to further ease your search. More backfiles give you the power to conduct deeper, more comprehensive searches and track trends through time.

Refine Results
Narrow down your search using categories meaningful to your search.

ISI Web of Knowledge homepage
Search CAB Abstracts and other content simultaneously, for a unified, complete search.

THE ISI WEB OF KNOWLEDGE ADVANTAGE

All-Database Search

Accessing CAB Abstracts on the *ISI Web of Knowledge* platform means you can simultaneously search all other *ISI Web of Knowledge* resources your institution subscribes to. You can find complementary information on resources such as *Web of Science*®, *FSTA – Food Science Technology Abstracts*® and *BIOSIS Previews*®, while taking advantage of powerful tools such as cited reference searching. One common vocabulary within this platform enables your search terms to be matched to all relevant terms that may be categorized differently in other databases, delivering more complete and relevant results.

Analyze Tool

Find hidden trends and patterns, gain insight into emerging fields of research, identify leading researchers, institutions, and journals, and trace the history of a particular field of study. You can analyze results by author, publication year, journal subject category, institution, language or source title, and view a numerical, percentage and graphical representation of the analysis.

Alerting and RSS feeds

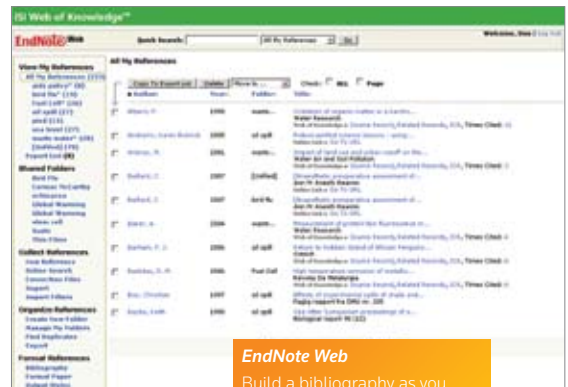

Keep up to date with the information that matters to you. Save searches as email alerts and set up RSS feeds for saved searches.

EndNote® Web

Create bibliographies on the go with *EndNote Web*, fully integrated into *ISI Web of Knowledge* and freely available to any user. With *EndNote Web*, you can easily access and organize your references online as you search *ISI Web of Knowledge*, PubMed® and hundreds of library OPACs directly. You can send references to *EndNote Web* as you search, share *EndNote Web* folders with others, store references online between search sessions and transfer your files to *EndNote* on the desktop for further management.

CAB Abstracts specialized content and tools
Take advantage of specialized indexing, subject classifications, CAB Thesaurus, CABICODES and Cas Registry Numbers®.

EndNote Web
Build a bibliography as you search, and format your papers instantly.
