UP-TO-DATE INFORMATION FROM RELEVANT JOURNALS, BOOKS, AND WEB SITES

Current Contents Connect is a comprehensive current awareness database available through the Thomson Reuters Web of Knowledge platform. Every journal included in Current Contents Connect has met the high standards of an objective evaluation process that eliminates clutter and excess and delivers data that is accurate, meaningful, and timely. And cover-to-cover indexing assures you of access to all the valuable information available in a journal—not just the articles. CC Connect® also covers selected Web sites.

THE WEB OF KNOWLEDGE ADVANTAGE

You can simultaneously search CC Connect with other Web of Knowledge resources your institution subscribes to. The powerful capabilities of this premier research platform make searching, analyzing, and organizing global research data more efficient and effective. And one common vocabulary within this platform enables your search terms to be matched to all relevant terms that may be categorized differently in other databases, delivering more complete and relevant results.
ANALYZE TOOL
Find hidden trends and patterns, gain insight into emerging fields of research, identify leading researchers, institutions, and journals, and trace the history of a particular field of study. You can analyze results by author, publication year, journal subject category, institution, language or source title, and view a numerical, percentage and graphical representation of the analysis.

AUTHOR FINDER
Quickly distinguish between authors who have the same name and group an author’s output when the name is recorded in several different formats.

ENDNOTE® WEB
Create bibliographies on the go with EndNote Web, fully integrated into Web of Knowledge and freely available to any user. With EndNote Web, you can easily access and organize your references online as you search Web of Knowledge, PubMed® and hundreds of library OPACs directly. You can send references to EndNote Web as you search, share EndNote Web folders with others, store references online between search sessions and transfer your files to EndNote on the desktop for further management.

ALERTING AND RSS FEEDS
Keep up to date with the information that matters to you. Save searches as email alerts and set up RSS feeds for saved searches.
