ESSENTIAL SCIENCE INDICATORS AND JOURNAL CITATION REPORTS

A LOOK AT THE NEW ESSENTIAL SCIENCE INDICATORS® AND JOURNAL CITATION REPORTS®

WHAT ARE THE NEXT GENERATION OF ESSENTIAL SCIENCE INDICATORS AND JOURNAL CITATION REPORTS?

Essential Science Indicators™ and Journal Citation Reports® are now supported on the InCites platform. This is part of a larger initiative to provide a single environment for research and bibliometric assessment and evaluation. In the future, this initiative will also include seamless integration of Essential Science Indicators and Journal Citation Reports into the new InCites platform. This integration will better support your long-term vision and keep you informed of the latest trends with a multifaceted analytics view from a single destination.

HOW CAN I GET ACCESS TO THE NEW PRODUCT?

Anyone with a current subscription to Essential Science Indicators and Journal Citation Reports can be moved to the new product. Contact your account representative to learn how you can migrate to InCites: Essential Science Indicators and InCites: Journal Citation Reports. Keep in mind, enhanced reporting and capabilities can only be accessed on the InCites platform.

HOW WILL THIS BENEFIT ME?

This switch will provide a single resource to help you make the most informed decisions to support your programs and policies. Essential Science Indicators, Journal Citation Reports, and InCites combine to help you easily benchmark and compare your organization’s research activities. You’ll be able to easily compare individuals, institutions, and publications, plus pinpoint emerging trends and influential researchers, using this new platform.
WHAT ARE THE KEY CHANGES?

Essential Science Indicators and Journal Citation Reports will be supported on a re-designed, intelligently unified InCites platform for assessing and evaluating research performance in the 21st Century, with new features and capabilities that include:

- Improved data clarity with indicators based on publication year
- New trend data views and visualizations
- Easily save and export reports
- Drill down to access and explore the underlying data that informs Journal Citation Reports metrics
- Easily analyze and compare journal trends over time
- New exploratory environment promoting discovery and easier analysis
- Personalization options to support your workflow

WHAT IS THE BENEFIT OF THE MOVE TO THE INCITES PLATFORM?

Get the whole picture of research discovery from Thomson Reuters with the re-engineered research analytics platform, InCites. Experience all analytics products, content and tools on a single platform, in context. Now, use a single resource to help you make the most informed decisions to support your programs and policies with the most comprehensive assessments of people, papers, journals, and institutions available.

THOMSON REUTERS

Thomson Reuters leads the market in the development of enterprise-wide systems. Our expertise allows us to integrate and centralize data across multiple sources for reliable research and development analysis. The systematic and objective assembly of data lets administrators, researchers and faculty explore and build upon research at the institutional, regional, national and global levels.
