# EndNote Web

## Bibliographies Made Easy™ on the Web

A Web-based service designed to help students and researchers through the process of writing a research paper. An institutional subscription to EndNote Web provides undergraduates with a simple solution for citing references in their course work and allows scholars to manage their references while away from their desktop computers.

Whether at the library or elsewhere, EndNote Web lets you:

- Search ISI Web of Knowledge<sup>SM</sup>, PubMed and hundreds of library OPACs directly
- Import references from hundreds of online bibliographic databases and organize a library of references
- Store up to 10,000 records per EndNote Web account and link to full text available at your institution
- Edit references—add notes, keywords—modify any field
- Use over 3,300 publishing styles to format in-text citations and bibliographies—footnotes, too!
- Cite While You Write™ in Microsoft Word to insert references and format papers instantly (with plug-in)
- Simplify collaboration with colleagues—share EndNote Web folders
- Transfer references directly to and from EndNote X and X1 on the desktop.

EndNote Web is the perfect complement to EndNote, used by millions of graduate students, librarians and researchers worldwide. With unique integration between ISI Web of Knowledge<sup>SM</sup> and EndNote Web, users enjoy seamless access to current and retrospective multidisciplinary information from the most prestigious, high-impact journals in the world.

An annual subscription to EndNote Web provides a cost-effective sitewide solution that maximizes the value of online content and includes upgrades at no additional charge. Online tutorials are available 24/7 to help users get started.

## Online Search Tool

- Use over 2,700 predefined connection files to search Internet libraries! Access bibliographic databases, including MEDLINE, the Library of Congress, Web of Science® and university library catalogs.
- Copy selected references to your EndNote Web folders.

## Reference Organizer

- Build a reference library using the online search tool, by importing files from 670+ online databases, or by manual entry.
- Store up to 10,000 references.
- Link to full text available to your institution.
- Share folders with colleagues for easy collaboration—set the access rights as read-write or read-only.
- Locate references with Quick Search—EndNote Web highlights every instance of the search term.
- Use 41 reference types (e.g., journal article, book, Web page).
- Install optional EndNote Web toolbars in Microsoft® Internet Explorer and Firefox™ to access your library in one click, and capture citation data easily (requires plug-in).
- Transfer references to and from EndNote X.0.2 or higher easily, or export and import libraries between previous versions and Reference Manager.®

## Bibliography Maker

- Locate citations in Microsoft® Word with the Cite While You Write™ technology (patent pending). Watch the bibliography appear as you write.
- Use over 3,300 bibliographic styles (e.g., APA, MLA, Science, Nature)—across dozens of disciplines, including medicine, biosciences, the humanities and social sciences—to format footnotes, *ibid.*, anonymous works and other bibliographic details.
- Revise your document as many times as needed and let EndNote Web update the in-text citations and bibliography instantly.
- Use *Format Paper* to create a bibliography with other word processors such as OpenOffice, StarOffice, Apple Pages and more.
- Create an independent bibliography list that can be saved, emailed or printed instantly.
- Cite references from EndNote Web and EndNote in a single paper.

## Administrative Tools

- View usage reports and EndNote Web accounts.
- Customize lists of online search connections, import filters and output styles for your institution.
- Create new ones, or modify existing online search connections, import filters and output styles in EndNote on the desktop and upload to EndNote Web easily (one copy of EndNote included).
- Reveal your OpenURL links to EndNote Web users (automatic for ISI Web of Knowledge subscribers).
- Deploy Cite While You Write and Web browser tools across campus computers with a MSI installer.
