

THE LARGEST FOOD SCIENCE DATABASE CURRENTLY AVAILABLE

# FSTA – FOOD SCIENCE & TECHNOLOGY ABSTRACTS®

INTERNATIONAL RESEARCH OF FOOD-RELATED DISCIPLINES

## WHAT YOU'LL FIND

- Global coverage of pure and applied research in food science
- Over 1 million records from more than 4,600 serial publications and patents from around the globe
- More than 10,000 keywords continually adds terms to keep pace with new technologies
- Direct links to your full-text collections
- Fully searchable and indexed backfiles to 1969
- Full integration with Web of Knowledge content and capabilities

## WHAT YOU CAN DO

- Search multiple disciplines and time spans
- Produce high quality research that reflects novel ideas and emerging trends
- Discover emerging trends that help you pursue successful research and grant acquisition
- Identify potential collaborators with significant citation records
- Target high-impact journals for publishing your manuscript
- Integrate searching, writing, and bibliography creation into one streamlined process

## OFFERS INSIGHTS INTO A WIDE RANGE OF FOOD-RELATED DISCIPLINES

This definitive food and beverage R&D database provides thorough coverage of pure and applied research in food science, food technology, and food-related nutrition.

IFIS is the leading international information provider and distributor of food and drink related information. IFIS produces FSTA®, an intelligence service constantly monitoring developments in the areas of food science, food technology and nutrition.

FSTA is an established, comprehensive and food science centric information resource, created by IFIS' team of expert scientists, who evaluate, hand-pick and summarise source material to

create high quality records of direct relevance and high scientific integrity. FSTA collates and reports the latest developments and research findings in all sciences relevant to food, drink and nutrition. FSTA is uniquely structured to make this complete knowledge easily accessible.

## BACKFILES AVAILABLE TO 1969

You can track nearly four decades of vital data and find the supporting – or refuting – data you need. Modern indexing terms and search functions have been added to older backfiles to further ease your search. More backfiles give you the power to conduct deeper, more comprehensive searches and track trends through time.

### Web of Knowledge homepage

Search FSTA and other content simultaneously, for a unified, complete search.

### FSTA specialized content and tools

Take advantage of specialized indexing and the FSTA Thesaurus, a collection of more than 10,000 keywords.

THOMSON REUTERS

## THE WEB OF KNOWLEDGE ADVANTAGE

Accessing FSTA on the Web of Knowledge platform means you can simultaneously search all other Web of Knowledge resources your institution subscribes to. You can find complementary information on resources such as Web of Science®, CAB Abstracts and BIOSIS Previews®, while taking advantage of powerful tools such as cited reference searching. One common vocabulary within this platform enables your search terms to be matched to all relevant terms that may be categorized differently in other databases, delivering more complete and relevant results.

### Analyze Tool

Gain insight into research trends; identify leading researchers, institutions and journals.

## ANALYZE TOOL

Find hidden trends and patterns, gain insight into emerging fields of research, identify leading researchers, institutions, and journals, and trace the history of a particular field of study. You can analyze results by author, publication year, journal subject category, institution, language or source title, and view a numerical, percentage and graphical representation of the analysis.

## ALERTING AND RSS FEEDS

Keep up to date with the information that matters to you. Save searches as email alerts and set up RSS feeds for saved searches.

## ENDNOTE®

Create bibliographies on the go with EndNote, fully integrated into Web of Knowledge and freely available to any user. With EndNote Web, you can easily access and organize your references online as you search Web of Knowledge, PubMed® and hundreds of library OPACs directly. You can send references to EndNote as you search, share EndNote folders with others, store references online between search sessions and transfer your files to EndNote on the desktop for further management.

### EndNote

Build a bibliography as you search, and format your papers instantly.
