

FROM DISCOVERY TO PUBLISHING ENDNOTE X2 GETS YOU THERE FASTER.

EndNote® X2 continues a 20-year history of innovation that translates to your publishing success in record time. Not only does EndNote X2 save you time by removing steps, it also puts more action in your library dashboard—right where you want it. The new full text locator joins blazing online searches and the Cite While You Write™ (patent pending) technology to deliver all the high performance you could possibly want in an easy-to-use bibliography software and more.

Use EndNote for:

- research papers
- theses/dissertations
- grants
- *curricula vitae*
- regulatory filings
- linking to related files
- collaborating with colleagues

LET ENDNOTE LOCATE AND DOWNLOAD FULL TEXT

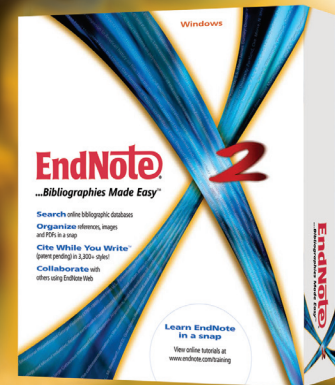

It's that simple—select one or more references, a group, or your entire library and have EndNote scan for full text available to you. When the full text is found, EndNote downloads and links it to the appropriate reference automatically—all while you continue to work.

ACCESS NEW GROUPS

EndNote X2 brings the organization and collection touch points together in one Group panel. Now you can create Smart Groups to collect new references based on your criteria. A new Trash group enables you to recover deleted references. Your favorite Online Search sites are now ready to mine instantly. The online search results are imported into your library automatically to save the previous drag and drop steps. And your EndNote Web groups can be transferred to and from the desktop easily.

- Use new reference types—Aggregated Database, Blog, Catalog, Pamphlet, Serial Publication, and Standard.
- Track new and updated references with an automatic date stamp.
- Compress and email your EndNote library easily.
- View key metrics for a library or a record—groups, counts and more.

EndNote X2 includes new and updated resources—2,800+ connections to online sources, 600+ import filters and over 3,300 publishing styles!

NEW INTEGRATED SEARCH TAB

The preview pane includes a new tab for searching your EndNote library as well as online resources. The tab indicates the source being searched so you can identify the results easily.

COLLABORATE WITH ENDNOTE WEB® AND MORE!

New—EndNote Web® is included with EndNote so you can collaborate with colleagues and students easily. Transfer references between the Web and desktop using the EndNote Web section in the groups panel. And, you can cite references from both EndNote and EndNote Web in a single paper. Whichever way you want to work, EndNote is ready!

THE STANDARD FOR RESEARCH AND PUBLISHING. USED BY MILLIONS WORLDWIDE.

WHO NEEDS ENDNOTE?

Researchers

"I've used EndNote since version 1, and find it to be an indispensable component of my academic toolbox. EndNote makes it easier for me to do my job well. I would not want to be without it."

—Barry J. Fishman,
School of Education,
The University of Michigan

Students

"I love EndNote! I organize references like playlists and cite all my papers effortlessly. Don't start your thesis without it."

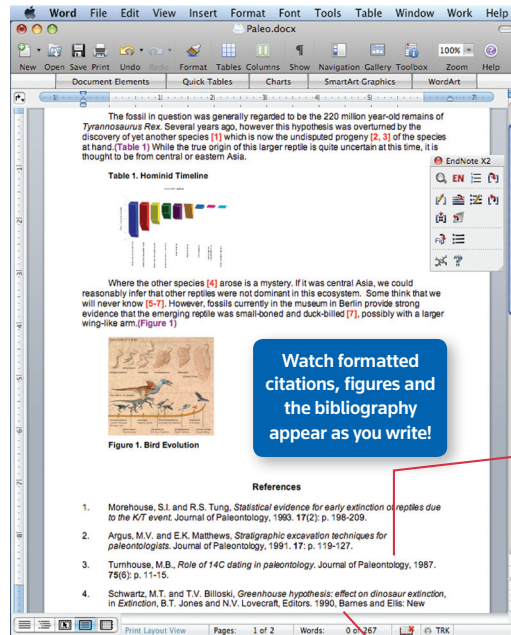

—Cate Birtley,
New York University,
School of Law

Librarians

"EndNote is the most intuitive, accessible bibliographic management tool I've utilized. The interface and layout of the program are remarkably user-friendly."

—Christopher Stave,
Librarian, Lane Medical Library,
Stanford University

Format and preview bibliographies in over 3,300 styles—create your own easily

Bibliography and Manuscript Maker

- Locate citations, figures and tables in Microsoft® Word with the Cite While You Write™ technology.
- Use over 3,300 bibliographic styles (e.g., APA, MLA, Science, Nature)—across dozens of disciplines, including medicine, biosciences, the humanities and social sciences—to format footnotes, ibid., anonymous works and other advanced bibliographic details.
- Let Microsoft Word templates guide you through the exacting manuscript requirements of publishers.
- Revise your document as many times as needed and let EndNote update the manuscript (in-text citations, bibliography, figure and table lists) instantly.
- Create a subject bibliography with topic headings to produce *curricula vitae* and reading lists.
- Use *Format Paper* to create a bibliography with OpenOffice, Apple® Pages® and more.
- Cite references from EndNote and EndNote Web in a single paper.

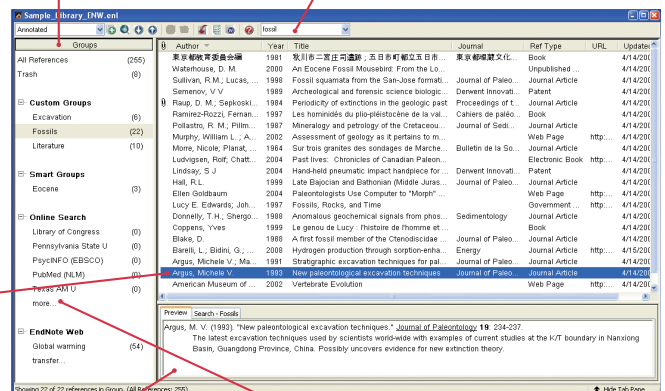

System Requirements

- 180 MB hard disk space available
- 256 MB RAM
- CD-ROM drive
- Internet connection required to search online databases
- Libraries compatible on Windows and Mac OS X
- Unicode compliant
- Handheld compatibility—16MB RAM:
 - Windows Mobile® 5.x (Smartphones not supported); Serial/USB ActiveSync;
 - Palm OS® 4.x–5.4.x; Serial/USB HotSync®
- EndNote Web account included

Group references

- Drag and drop
- New! Smart Groups
- New! EndNote Web
- New! Trash bin

Quick search or use the New! integrated Search tab

Search from EndNote or export from thousands of online databases:

- Web of Knowledge
- University catalogs
- and 1,000's more

Reference and Image Organizer

- Build reference libraries using the online search tool, by importing files from 600+ online databases, or by manual entry.
- Create unlimited libraries of unlimited size.
- Group references into subject folders and create Smart Groups.
- Link your references to full text articles and other material stored in PDF files or on the Web.
- Organize images (e.g., charts/tables, figures and equations) for citing in table and figure lists.
- Search all fields and perform Boolean searches.
- Use or customize 46 reference types (e.g., journal article, book, web page, figure) with up to 52 fields (e.g., abstract, notes).
- Spell Check references with standard, multi-language and discipline-specific dictionaries.

Online Search Tool

- Use over 2,800 predefined Connection files to search Internet libraries! Access MEDLINE, the Library of Congress, university library catalogs and more.
- Drag and drop references to your own EndNote library (database of references).
- Export references directly from Web of Knowledge, Ovid, OCLC, EBSCO and more.

Connectivity

- Let EndNote locate and store full text files.
- Transfer references directly to and from EndNote Web.
- Access an EndNote library on a Windows Mobile or Palm™ handheld easily.
- Connect to your institution's online resources with OpenURL standard links—locate full text faster.

Windows XP (Service Pack 2), Vista

- Pentium 450-MHz minimum
- Check www.endnote.com/enwin.asp for the latest compatibility:
- Cite While You Write™ feature compatible with Microsoft Word 2003, 2007

Mac OS X 10.4x–10.5.x

- Intel- or PowerPC-based Mac 450-MHz min.
- Check www.endnote.com/enmac.asp for the latest compatibility:
- Cite While You Write™ feature compatible with Microsoft Word 2004, 2008
